

Mai Maungapōhatu ki Ohiwa

## WHAI MAI I Ō TĀTAU KAUPAPA I RUNGA I TE PAE TUKUTUKU Ō TE WAIMANA KAAKU

Our Year At A Glance...

*Tēnei te mihi maioha ki a koutou katoa ō te Waimana Kaaku. Kua tae tātau ki te wā ō te Kirihimete, te wā ka noho tātau ki te maumahara mō rātau mā kua hiko ki muri i te ārai. Te wā hei mahi tahi, kai tahi, i te noho i ō koutou whānau. Te wawata kā kite anō i te tau hou 2017.*

*Mā to tātau matua i te rangi e manaaki i a  
koutou, i a tātau katoa.*

*Meri Kirihimete*

## 2016 What a year!!!

*2016 has been a busy year for your Tribal. Your delegates actively attended and participated in tribal hui highlighting their commitment on your behalf.*

*Your trustees, directors and committees have contributed to our progress.*

*Kei runga noa atu koutou katoa.*

*Here's a snapshot of the past year.*

### The Inaugural Tūhoe Carpentry Course

Ten **Te Waimana** men commenced their journey into pre-trade training with the Anamata PTE. During the course of 2016, alongside the theory work, the students did practical on site training with private and community renovation projects including Rahiri Pā, Tanatana Church and Te Waimana Kura, as well as work experience placements with Qualified Builders within the region.

This NZ Certificate course also provided them all the opportunity to upskill and acquire driver licences, ramset gun licences and basic first aid.

They have now completed their training for the year with four gaining employment with a Building Contractor in Te Puke, four continuing training at Level 4 and two are keen to hear from anyone who can assist in providing part time or full time mahi or apprenticeships in Building and Construction in 2017.

Please phone the Tari on 312 3700 if you are able to assist in any way.

# Hapū Development & Infrastructure

*Te Waimana Kaaku Tribal* celebrated the development of those of our Pā in renovations and rebuilds to their whareniui and wharekai, along with those who began the planning for future mahi in infrastructure and development.

*Left: The new Tanatana wharemanaaki was awarded both the Regional and Supreme ADNZ commercial/ industrial architectural design award.*

## Te Waimana MEDICAL CENTRE

*Our Medical centre was opened in August this year and has slowly grown its' patient base. Health promotion is a key focus for our Hauora Co-ordinator, of which there are many focus areas nationally. Our efforts are upon those relevant to our whānau, including diabetes and respiratory problems.*

*We are still keen to see an increase in our patient numbers and Matoro would like to hear from you and take your enrolment. Looking forward to 2017 as our Medical Centre continues to develop for our Whānau and community. Phone Matoro on 312 3296 for an enrolment pack or call in at 6 Rāroa Road, Waimana.*

# Te Kawa o Te Urewera

*'Kia ora Te Urewera, Ka ora te tangata'*

2016 has been a busy year in terms of future planning and priorities for Te Urewera. Te Waimana Hapū engaged in hui to a whārua approach to submissions into Te Kawa o Te Urewera.

In October, some of our Hapū members (including Pakeke) were afforded the opportunity to assess the health of Te Urewera through a fly-over organised by the Ōnukurangi team. This allowed them to see the positive pest control effects and identify areas that need more attention. With Pakeke on board, it gave some the opportunity to see, listen and learn traditional wāhi ingoa alongside a little storytelling of past experiences.

## Priorities

**Ko au, ko Te Urewera  
ko Te Urewera, ko au.**

## the object of our responsibility

*"There's a picture of one of the places up there and yeah, have a look from that until now and yeah it's a big difference, big difference."*

*"I taku titiro, kai te āhua pai to tātau ngāhere.  
Ētahi wāhi kua tika kē i te whakatikatika."*

*Ā, he rawe, he rawe, engari ko taku whakaaro, kāre e aro i au he aha te rongoā e tika ana hei whakatikatika wā tātau rākau. Kāre kau tū hiahia i tē 1080.*

The Te Waimana Te Urewera Committee was established with Hapū appointed representation to gather feedback, kōrero and priorities of focus towards Te Kawa.

Hui were held throughout the year where kaupapa concerning the future management of Te Urewera were discussed. Recommendations made, were agreed to through Tribal hui, collated for the final submission put forward by the Tribal at the end of November.

The first draft of Te Kawa o Te Urewera will be complete shortly for further discussion. You've proactively participated in Te Urewera training this year, in particular SARS & River Crossing. We look forward to further building our capability in 2017.

*'Comms' has developed steadily since July with more output of Te Manu and a concerted effort to be more current in terms of information sharing. Our website is established with fine tuning occurring and will go live in 2017.*

# Te Waimana in the Iwi Annual Plan

## Our commitment to Tūhoetana

Your redesigned Tūhoe Rēhita – Nation, administered by Anamata Team is fully engaged to meet the demographic data and information needs of Tūhoe - Te Uru Taumatua and readied to transfer Tūhoe whakapapa to enable a Tribal led Rēhita.

There are  
**9108**  
people registered on your  
Tūhoe Rēhita – Nation.

## Our confidence in our direction

Te Waimana Kaaku Tribal visited and talked 110 Te Waimana Whānau - those living in the whārua and our kanohi kitea living out of the whārua. These whānau shared their Whakaari on their overall wellbeing, connection and their aspirations for the future. We conducted 45 housing assessments to inform our Tribal development planning in raising the standards of living of our whānau, education, culture and identity.

The infrastructure for delivering our first Tribal Development plan was established at Te Arohanui, our Tribal Office. The new 'cube' was outfitted as an interim office space to house our new kaimahi.

## Our capability and development

Our Tūhoe Tribal Biodiversity Managers have been appointed to each whārua. Temporarily located at Te Kura Whare and working within the Ōnukurangi team, they will learn and assist with the style and approach of delivering operation mahi in Te Urewera.

Mā tīni mā mano,  
ka rapa te whai...

We welcomed korero & hui with Ōmuriwaka Hapū this year.

Growing our Ōhiwa connection helped reignite whakapapa connections.

Along with empowerment and participation, capacity-building is an essential element of sustainable development. An allocation was included for infrastructure development, while supporting education that enables opportunity for developing skills and leadership that is needed for Tribal development and growth.

**TOM BROWN**  
Tribal Biodiversity  
Manager - Waimana

It was a bit slow at the beginning, but now there is more focus on what's needed to be done.

You wrapped up the year at

# HE IWI WHAKAMOE TAU

On Saturday 03 December, Te Waimana Pakeke, rangatahi, Tribal delegates, staff and the Board Trustees attended our Hui a Tau of Tūhoe - Te Uru Tau-matua. We listened, participated and facilitated workshops, caught up with whanau, played with friends, helped with kai, enjoyed the movie on the ātea and supervised the tamariki workshops. This year each Tribal Tari had their own space to present their mahi over the last year.

Above: Ryan Te Wara and Martin Rakuraku - Te Waimana Trustees on Te Uru Taumatua Board with Kero Te Pou, Te Waimana Kaaku Tribal Chair.

Check out your display and the photos from the day!

Your Tribal display highlighted your delegates, kaupapa & achievements of ngā Pā along with mahi that had been carried out within your Tribal Development Plans throughout the 2015-2016 year.

Looking forward to seeing us all again at the next Iwi Hui Whakamoe Tau.

How do we practise 'Cultural Harvest'

Cultural Harvest was a topic for discussion at the Tūhoe Iwi Whakamoe Tau, with input from members of all whārua. Identifying what Cultural Harvest was in Te Urewera raised some great positive feedback in terms of sustainability and long term

Ko ou ko Te Urewera  
Ko Te Urewera ko ou.
